SUPPLEMENT TO

REPORT NO.

25X1X

- 1. A rail link is being constructed between the Outer Freight Ring and the Gerlin-Kuestrin railroad line. The track of the Berlin elevated railway system is being removed from the embankment and directed through a railroad underpass. The project is officially designated "Rail Link Biesdorf North" and is scheduled to be completed by 20 November 1950. Tork on the project is accelerated as much as possible. *
- 2. A new rail link is being built between the Outer Freight Ring and the Berlin-Frankfurt line near the Juhlhoide (N 53/Z 94) railroad station. The project, which is officially designated "Rail Link Koepenick North", is scheduled to be completed by 25 November 1950.**
